Re: Submission of Thermal Oxidizer Performance Test Report Pursuant to Consent Order Paragraph 7

Dear Ms. Holman,

Chemours is pleased to submit the enclosed Thermal Oxidizer Performance Test Report, as required under paragraph 7(c) of the Consent Order entered by the Superior Court for Bladen County on February 25, 2019. This test report demonstrates that the thermal oxidizer is destroying 99.99% of all PFAS air emissions routed to it as provided under the Consent Order.

As always, if you have any questions or need any additional information concerning this report, or the Consent Order implementation generally, please contact me at Brian.D.Long@chemours.com.

Sincerely,

A handwritten signature in black ink that reads 'Brian D. Long'. The signature is written in a cursive style with a large, looped 'B' and a long, sweeping tail.

Brian D. Long
Plant Manager
Chemours – Fayetteville Works

Enclosure: Thermal Oxidizer Performance Test Report (control efficiency test report attachments for test dates January 3-4, 2020, February 4-5, 2020 and February 28-29, 2020 provided on compact disk)
