

Forward-Looking Statements and Other Information

The sustainability-related information presented, discussed, referenced or otherwise made available on or through our website (“Sustainability Information”) contains certain “forward-looking statements,” including statements regarding future economic conditions; climate change and its impact; our future business plans, strategies, objectives, programs, products, and activities; the impact and benefits of our plans, strategies, programs, products, and activities; and the risks to our business and the factors that will impact them. These forward-looking statements are based on management’s current assumptions regarding numerous factors and are subject to change. Actual outcomes may differ materially from those reflected in these forward-looking statements due to a variety of factors, including, but not limited to, those described in “Forward Looking Statements” and “Risk Factors” in our annual report on Form 10-K for the year ended December 31, 2023, and otherwise described in our SEC filings. Any forward-looking statements made by us speak only as of the date on which they were made. We are under no obligation to, and expressly disclaim any obligation to, update or alter our forward-looking statements, whether as a result of new information, subsequent events, or otherwise.
